PROFESSIONAL SUMMARY

Modern Workplace Engineer with 10+ years engineering and designing Microsoft Intune, Azure Endpoint Manager, and Office 365 environments at enterprise scale. Deep PowerShell automation, Windows 10/11 image management, and endpoint security across fleets up to 300,000 devices in hybrid Azure AD. Microsoft Certified: Endpoint Administrator (MD-102); AZ-500 in progress; AZ-140 (AVD Specialty) next on roadmap. U.S. Army Veteran.

CORE COMPETENCIES

Microsoft Intune & Azure Endpoint Manager

Microsoft 365 & Teams

Azure Virtual Desktop (AVD)

PowerShell Automation

Windows 10/11 Image Management

Conditional Access & Zero Trust

Defender for Endpoint

Win32 / MSI Application Packaging

WORK EXPERIENCE

HKS Inc.

Nov 2023 - Present

Endpoint Engineer (Intune) — Dallas, TX

- Engineer and design **Microsoft Intune and Azure Endpoint Manager** environment supporting 1,700 users and 2,300 endpoints across a global organization.
- Manage Windows 10/11 image refresh cadence and **Windows Autopilot** provisioning profiles for zero-touch deployment.
- Configure and enforce **Conditional Access** policies and device compliance policies aligned with **Zero Trust** principles across Microsoft 365 estate.
- Implement endpoint security configurations including **BitLocker**, **Microsoft Defender for Endpoint**, and attack surface reduction rules.
- Deploy and maintain Win32 and LOB applications via Intune with **PowerShell** scripting, detection rules, and uninstall logic.
- Reduced environment complexity by consolidating 3,600 Azure AD groups and 1,600 applications.
- Develop and maintain configuration profiles, administrative templates, security baselines, and SOPs for endpoint management and policy governance.

Citigroup

2021 - 2023

Engineering Analyst 2 — Endpoint Management — Irving, TX

- AdminStudio Application Owner:** owned engineering and onboarding of the AdminStudio platform for the global packaging team — standards, workflow, training, and vendor governance.
- Supported enterprise endpoint management for **300,000 devices** using Microsoft Intune and SCCM in a **hybrid Azure AD** environment.
- Authored Win32 and MSI application packages using AdminStudio, Wise Package Studio, and MasterPackager; published to SCCM with detection rules, supersedence, and uninstall logic.
- Automated patching, provisioning, and remediation using **PowerShell** scripts and Microsoft Graph API integrations.
- Collaborated with security teams to remediate vulnerabilities and enforce endpoint compliance standards across the global fleet.
- Improved Intune and SCCM policy governance, enhancing audit readiness and compliance reporting.

Bright Development

2020 - 2021

Technical Project Manager / Scrum Master — Brooklyn, NY

- Led endpoint and DevOps initiatives including automation and CI/CD pipeline improvements.
- Implemented DevSecOps practices to improve system security and deployment workflows.

Salesforce Administrator / Web Developer — Herndon, VA

- Managed user access, authentication, and system security within Salesforce environments.
- Developed internal tools and automation scripts to improve operational efficiency.

PROJECTS

Enterprise Microsoft Intune Lab

Built lab environment simulating real-world endpoint deployment scenarios with Azure AD, Conditional Access, and Zero Trust segmentation across a multi-VLAN network.

PowerShell Endpoint Automation

Automated endpoint configuration and monitoring using PowerShell and self-hosted tools; included compliance reporting and remediation workflows.

Secure Remote Access

Deployed VPN and reverse-proxy solutions aligned with enterprise security practices and Zero Trust principles.

EDUCATION

Bachelor of Science in Cybersecurity — Collin College

Expected Dec 2026

Associate of Applied Science in Network Support Administration — El Centro College

Bachelor of Business Administration in Marketing — Dschang University

CERTIFICATIONS

Microsoft Certified: Endpoint Administrator Associate (MD-102)

Active

Microsoft Certified: Azure Security Engineer Associate (AZ-500)

In Progress

Microsoft Certified: Azure Virtual Desktop Specialty (AZ-140)

On Roadmap

AWS Certified Cloud Practitioner

Mar 2026

ICAgile Certified Professional — Agile Coaching

CompTIA A+ · CompTIA IT Fundamentals (ITF+)

Cisco Certified Entry Networking Technician (CCENT) · Certified ScrumMaster (CSM)

SKILLS

Endpoint Management: Microsoft Intune, Azure Endpoint Manager, SCCM (MEM), Windows Autopilot, Hybrid Azure AD, Compliance Policies, Configuration Profiles

Cloud & Identity: Microsoft Azure, Entra ID, Conditional Access, RBAC, Microsoft 365, Office 365 admin

Collaboration: Microsoft Teams, OneDrive, SharePoint admin (basics), Zoom

AVD & Imaging: Azure Virtual Desktop (familiarity), Windows 10/11 image refresh, MSIX

Application Packaging: AdminStudio, Wise Package Studio, MasterPackager, Win32, MSI, LOB Apps, detection rules, supersedence

Security: Microsoft Defender for Endpoint, BitLocker, Zero Trust baselines, Vulnerability Management (Qualys)

Automation & Scripting: PowerShell, Microsoft Graph API, REST APIs, Automation Runbooks

Systems: Windows 10/11, Windows Server

Languages: English (native / professional), French (fluent — bilingual)

Military: U.S. Army Veteran — Army National Guard, Security Specialist (2014-2020)
